# Capital Project Managers Ltd

**Independent design and management partner  
From pre-planning to construction**

Our team possesses direct experience in leading the development of high-profile projects leveraging nascent technologies as well as the direct development of these technologies through Technology Readiness Levels (TRLs) to commercial roll-out.

Our focus on transparent communication and close collaboration enables us to integrate seamlessly with our clients and delivery partners. Whether it is early-stage stakeholder management, navigating the UK planning process, technical due-diligence of design partners, or day-day cost and progress oversight; we are on hand to help.

## **Project Development Strategy**
